INTRODUCTION
and GENERAL INDEX

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1957 edition of the Albemarle City Directory, which also includes Badin.

Confidence in the growth of Albemarle's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Albemarle to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Albemarle Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of names and addresses of the business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Albemarle the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Albemarle and Badin, and the name, official personnel, nature and address of each firm and corporation.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY, covering the Albemarle and Badin exchanges, is the fourth major department, printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a port, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Albemarle and vicinity.

The Albemarle Directory Library

Through the courtesy of the publishers of the Albemarle City Directory, a Directory Library is maintained in the offices of the Albemarle & Stanly County Chamber of Commerce, for free reference by the general public. This is one of the more than 700 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Location

Albemarle is located in the heart of Piedmont North Carolina, among the gradual rolling hills of the Uwharrie Mountain range. It truly can be described as an area of "accessible isolation," being near large market areas and yet not hampered by large industrial and trade areas threatening to smother it. The county seat of Stanly County, Albemarle is near the geographical center of the state.

Climate

This area enjoys a mild, healthful climate throughout the year, being neither excessively hot in summer nor cold in winter. The annual mean temperature is 60 degrees. Average annual rainfall is 48 inches, and snowfall is 6.4 inches. The length of the growing season is approximately 189 days. This area is not subject to violent storms or other unusual weather conditions.

History

This city was named for the duke of Albemarle and was incorporated in 1847. The entire area is richly flavored with romantic history of the early settlers (primarily English and French) and of Indian tribes which once roamed the ageless mountain ranges. At one time river traffic came within ten miles of Albemarle, up the Pee Dee River, but of course this long since has given way to the harnessing of river power for electricity. Albemarle played a major role in both the American Revolution and the War Between the States. Skirmishes were reported in both wars, and a great deal of legend has been handed down generation-by-generation. There was a gold rush in the county during the 1860's, and at one time there were four mines in operation here.

Government

Albemarle is governed by a mayor and five aldermen, elected biennially by the people. Five commissioners, also elected biennially, govern the county Politically, the community has been traditionally governed by a two-party system, in keeping with its early heritage.

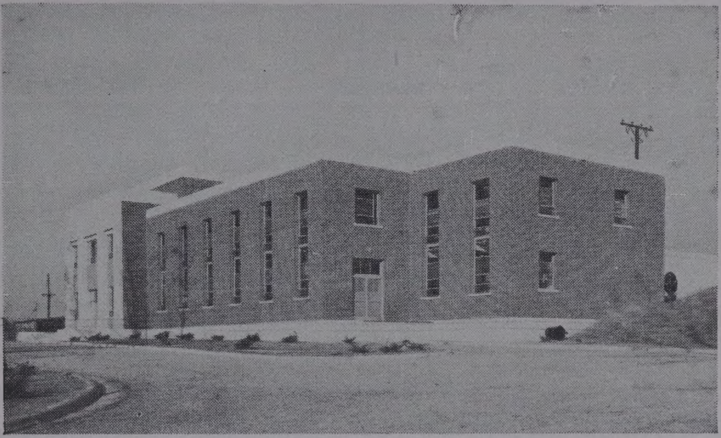
Municipal Facilities

The Stanly County Hospital was completed in 1950, with all modern facilities to serve this community. Fifteen rooms were added in 1954, bringing the total bed number to 115. Additional clinical and laboratory space was included in the enlargement program. The hospital is well staffed and has many specialists more commonly found in larger cities. The County Medical Center was placed in service in the spring of 1953, and will accommodate numerous patients through the county clinic.

The beautiful Wiscassett Memorial Y.M.C.A. was completed in 1950, and contains recreational facilities surpassed by few communities in the state. The spacious building accommodates several recreation and banquet rooms, library, lounges, a large gymnasium, bowling alleys and billiards. It is open to membership of the entire community.

Albemarle has two individual water plants, the largest and most modern of which is currently serving the community. It was completed and placed in service in 1951, and delivers a maximum of 4,000,000 gallons of water daily. Since only 2,000,000 gallons are consumed daily, the plant operates on half capacity. It can easily be expanded to produce 12,000,000 gallons a day. The water is pumped from the Yadkin River, some seven miles away.

The old water plant, having a capacity of 2,000,000 gallons daily, is being kept as an emergency measure, and is



Filter Plant, New Water System

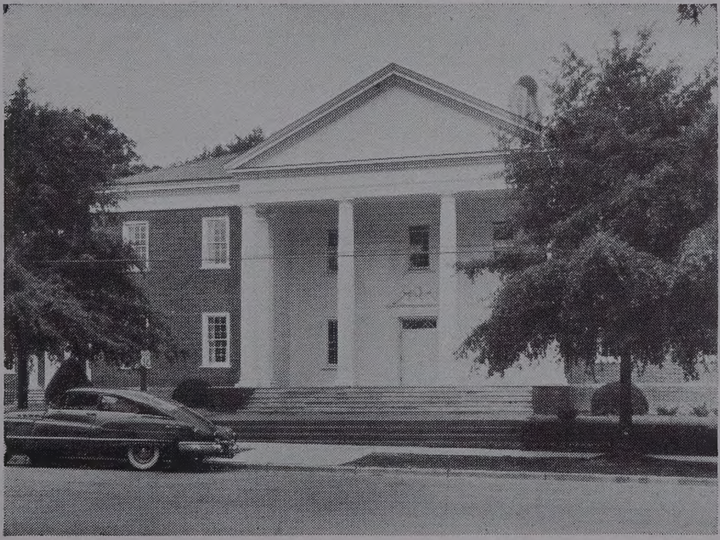
operated several times a week by the City to keep it in top condition.

The municipal sewage-disposal system is modern, and adequately meets the needs of the community.

Albemarle owns its power distribution systems and buys its power from Duke Power Co.

Both Albemarle and Stanly County are in excellent financial condition, having floated bonds for municipal and county projects a few years ago. They are paying off these debts at a rapid rate.

The fire and police departments are modern, well-staffed, and have the latest equipment available. There are 24 policemen and 18 firemen protecting the city. The per capita fire loss in 1955 was $ .50. Crime, other than the usual minor offenses, is kept at a minimum here.



Wiscassett Memorial Y.M.C.A.

Education

The city is equipped with five grade and two high schools, staffed by approximately 80 teachers. Pfeiffer College is located at Meisenheimer, eleven miles north of Albemarle. This beautiful campus is staffed with excellent instructors, and offers a wide variety of studies and degrees.

Churches

Practically all denominations and faiths commonly found in America are among the approximately 25 churches of Albemarle.

Recreation

This is truly an ideal location for recreation. In addition to the Y.M.C.A. already mentioned, 5½ miles east of town is the 4,000-acre Morrow Mountain State Park. This is known widely as the best park in the state system, and offers such facilities as a beautiful lodge, a spacious swimming pool, six cabins for summer vacationists, a large trailer camp, two picnic areas, camping grounds, scenic roads and trails, boating and fishing. Also a nature and historical museum is operated for study by the public.

The Stanly County Country Club offers a beautiful 18-hole golf course which is considered one of the best in the state.

There are two parks within the City. One is municipally-owned and has a large swimming pool, and the other is a

Morrow Mountain State Park

large playground for children. Other facilities are tennis, softball, hunting and picnicking.

Industries

The chief industry of Albemarle and Stanly County is textile manufacturing. Second in importance is the aluminum processing plant at Badin, seven miles from Albemarle. The hosiery knitting industry ranks third. Other industries and products are furniture and wood products plants, brick manufacturing, light-weight aggregate products, stone, flour mills and food industries. There are over 7,800 persons in Stanly County on industrial payrolls of approximately $19,000,000 annually. Many of these workers are farm-owners, and work both in the mills and tilling their soil.

Transportation

Two railway lines serve Albemarle—the Winston-Salem Southbound and the Yadkin Railroad. The former of these is controlled by the Atlantic Coast Line and the latter is leased by the Southern Railroad.

Four bus companies operate both local and interurban bus services throughout this area. There are three State highways and one U. S. highway intersecting at Albemarle. They are: N. C. 27, 73 and 740 and U. S. 52.

Beautiful Lodge on Morrow Mountain

Seven motor-freight carrier lines serve Albemarle on a schedule basis. Few places along the Eastern Seaboard are more than 72 hours from Albemarle by freight.

A locally-owned private airport, offering charter service, serves this area. There are no commercial airlines.

Agriculture

Stanly County is one of the foremost agricultural centers of North Carolina and can boast many "firsts." It is the only exporter of small grain within the state. It is the leading county in lespedeza seed growing. For many years this county has supplied other areas with quality seed. Stanly County ranks high in the production of beef and dairy cattle, poultry products, sheep and swine, and is a big producer of milo, corn and cotton. It has hundreds of acres of permanent pastures and hay crops. Tenant-farming is disappearing in this area due to the high fertility of the soil and the ability of the farmers to capitalize on it.

Banking and Finance

Albemarle is served by two banks: The First National Bank and a branch of the Cabarrus Bank & Trust Co. of North Carolina. The former, locally-owned, has assets totaling $4,764,000, while the latter has assets totaling $27,854,000.

There are two building and loan associations with assets totaling $11,000,000: The Albemarle Savings & Loan Association and the Home Builders Association.

Retail and Wholesale Trade

Albemarle has numerous modern stores and shops and is the trade center of a 40-mile area. Retail sales for the city alone exceed $26,000,000 annually. Wholesale sales are approximately $7,000,000. There are approximately 400 business houses within the city

Organizations

Civic organizations include the Chamber of Commerce, Jaycees, Jaycee-ettes, Lions Club, Civitan Club, Rotary Club, Optimists Club, Woman's Club, and various fraternal organizations. There are several service organizations, among which are the American Legion, Veterans of Foreign Wars, and Disabled American Veterans. Other organizations include Boy and Girl Scouts, garden clubs, Ministerial Association and Parent-Teachers' Association.

This Publication
Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

"r"—RESIDENT
"h"—HOUSEHOLDER

"r" AND "h"

Two important symbols are used in your City Directory. The symbol "r." before an address stands for "Resident." That person resides at that address but is not the head of the family or family head. The symbol "h" stands for "Householder"—the person in whose name the home is occupied.

CAUTION . . . .

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

CAUTION . . . . .

★ Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

Bulk Rate

For Details Consult Your Local Postmaster

Fourth-Class—(Parcel Post)

The present size and weight limits for fourth class (parcel post) will continue to apply in all cases except for parcels mailed at a first class office for delivery to another first class office in which case the size is limited to 72 inches length and girth, 40 pounds in weight to the local first and second zones, and 20 pounds in weight in the third to the eighth zones. Exceptions to the new size and weight restrictions are:

(1) Baby fowl, live plants, trees, shrubs, or agricultural commodities (not including manufactured products thereof).

(2) Books, permanently bound for preservation, consisting wholly of reading matter or reading matter with incidental blank spaces for students' notations and containing no advertising matter other than incidental announcements of books.

(3) Parcels mailed in the United States, including the District of Columbia, for delivery by any Army or Fleet post office or in any Territory or possession of the United States, including the Canal Zone and Trust Territory of the Pacific Islands, or mailed at any Army or Fleet post office or in any Territory or possession of the United States, including the Canal Zone and Trust Territory of the Pacific Islands, for delivery in the United States, including the District of Columbia, or any Army or Fleet post office or any Territory or possession thereof, including the Canal Zone and Trust Territory of the Pacific Islands.

It is not contemplated that the provisions of this law shall be evaded or circumvented by diverting parcels exceeding the prescribed limits of size and weight from first class offices and mailing the parcels at offices of the second, third or fourth class or on rural or star routes.

AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.

Your City Directory has

HILL'S
ALBEMARLE
Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide
1957
INCLUDING BADIN

Copyright, 1957, by Hill Directory Co., Inc

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parenthesis denote old numbers.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1 An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2 A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3 A *Classified Business Directory*—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4 A *"Yellow Section" or Buyers' Guide,* where the advertiser may explain in greater detail the services or products he has to offer.

5 A *Statistical and Historical Story* of your city plus miscellaneous other information.

Don't Contribute to Counterfeiters
KNOW YOUR MONEY!

Don't Be Fooled by Forgers
KNOW YOUR ENDORSERS!

The Government never redeems counterfeit money!

1. KNOW YOUR MONEY! Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. COMPARE a suspected bill with a genuine of the same type and denomination. Observe these things:

PORTRAIT	*Counterfeit*—Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background.
	Genuine—Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.
COLORED SEAL	*Counterfeit*—Saw-tooth points around rim are usually uneven, broken off.
	Genuine—Saw-tooth points around rim are even and sharp.
SERIAL NUMBERS	*Counterfeit*—Poorly printed, badly spaced, uneven in appearance.
	Genuine—Figures firmly and evenly printed, well spaced.
PAPER	*Counterfeit*—Generally has no silk threads, but these may be imitated by very small red and blue ink lines.
	Genuine—Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. RUBBING a bill on a piece of paper will *not* prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. CONSULT an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.

This information is reprinted from the U. S. Secret Service 32-page booklet, "KNOW YOUR MONEY", which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10c each, or $7.50 per 100, from the Superintendent of Documents, Government Printing Office, Washington, D. C.
